Math Cards

What are Flip and Go cards?

Flip & Go cards are mobile task cards. They are intended to maximize instructional time & efficiently reinforce math skills throughout all parts of the school day. They are simple and easy to assemble. Simply print, cut & go.

They can be used to reinforce math skills:

- * for early finishers
- * during small group time or math centers
- * during recess for individual students
- * in the hallways during restroom breaks
- * on the school bus during field trips

How much time will the Flip and Go cards take?

Timing varies depending on the purpose. The activities can last as long as 20 minutes (ex. math centers) and as short as 3 minutes (ex. hallway review). They are intended to maximize every portion of the school day. Use them how you see fit in the amount of time that you have available.

How can I use the Flip and Go cards?

Never waste a moment of instructional time. Bring your Flip & Go Cards with you during recess time or picking the students up from specials/connections. Use them for review or assessments. Correct responses can result in extra credit points in math or class participation points.

Math Cards

Other Ideas for Use

Early Finisher or Independent Practice

For independent practice, students should solve the problems using the the Flip & Go Math Cards and the answer sheet. Upon completion, he or she can check their answers using the answer key. Collect their recording sheet and use it as an assessment.

Math Centers or Small Group Time

Scenario #1: Students can play in a group of 3 or 4. Each student should have a copy of the Flip & Go Math Cards and a dry erase board. The students play against one another by answering each question. The first student to correctly answer the question receives a point. The student with the most points wins the game.

Scenario #2: Students play in pairs. Each pair has 1 copy of the Flip & Go Math Cards. One student answers the questions on the cards while the other student checks the answers, using the key.

Spiral Review

The Flip and Go Math Cards can be printed on card stock for long term use. They can easily be used to review skills in which the students need additional support or incorporated into morning work time. Spiral review is essential for students to maintain skills, using the Flip & Go Math Cards ensures that the students are never left behind.

Let the Credits Roll...

The following amazing artists created design elements featured in this product.

.....

.....

Terms of Use

Please note this product is for personal classroom use by a single teacher. I retain the copy, and reserve all rights to this product.

If you encounter an issue with your file or notice an error, please contact me and I will be more than happy to sort it out.

You May.....

- ★ Use items (free & purchased) for your own classroom students, or your own personal use.
- ★ Reference this product in blog posts, at seminars, professional development workshops, or other such venues PROVIDED there is both credit given to myself as the author and a link back to my TpT store.
- ★ Distribute and make copies of FREE items only to other teachers.

You May Not.....

- ★ Claim this work as your own, alter the files in any way, or remove/attempt to remove the copyright/watermark.
- ★ Sell the files or combine them into another unit for sale/free.
- ★ Post this document for sale/free elsewhere on the internet (including personal websites, district websites, or classroom websites) unless credit is given to myself as the author (see “You May” section).
